

Name: _____

Date: _____

Ordered Pairs

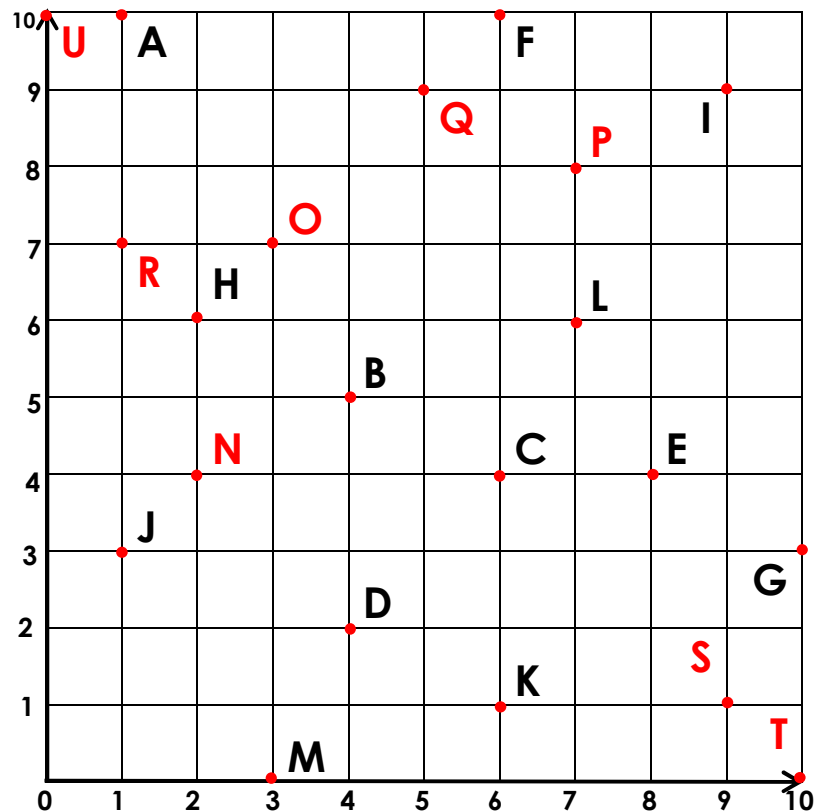

Plot the following points of ordered pair on the coordinate grid.

Example: Point C is at (6, 4) on the coordinate grid.

1. N (2, 4)
2. O (3, 7)
3. P (7, 8)
4. Q (5, 9)
5. R (1, 7)
6. S (9, 1)
7. T (10, 0)
8. U (0, 10)
9. Start at point (0, 0). Turn right and go six spaces. Then go up four spaces. What point do you land on?
10. Start at point F. Turn left and go four spaces. Then go down four spaces. What point do you land on?

Ordered Pairs - ANSWER KEY

Plot the following points of ordered pair on the coordinate grid.

Example: Point C is at (6, 4) on the coordinate grid.

1. N (2, 4)
2. O (3, 7)
3. P (7, 8)
4. Q (5, 9)
5. R (1, 7)
6. S (9, 1)
7. T (10, 0)
8. U (0, 10)
9. Start at point (0, 0). Turn right and go six spaces. Then go up four spaces. What point do you land on? C
10. Start at point F. Turn left and go four spaces. Then go down four spaces. What point do you land on? H
